My Twitter post on my Focus Area (144 characters) –

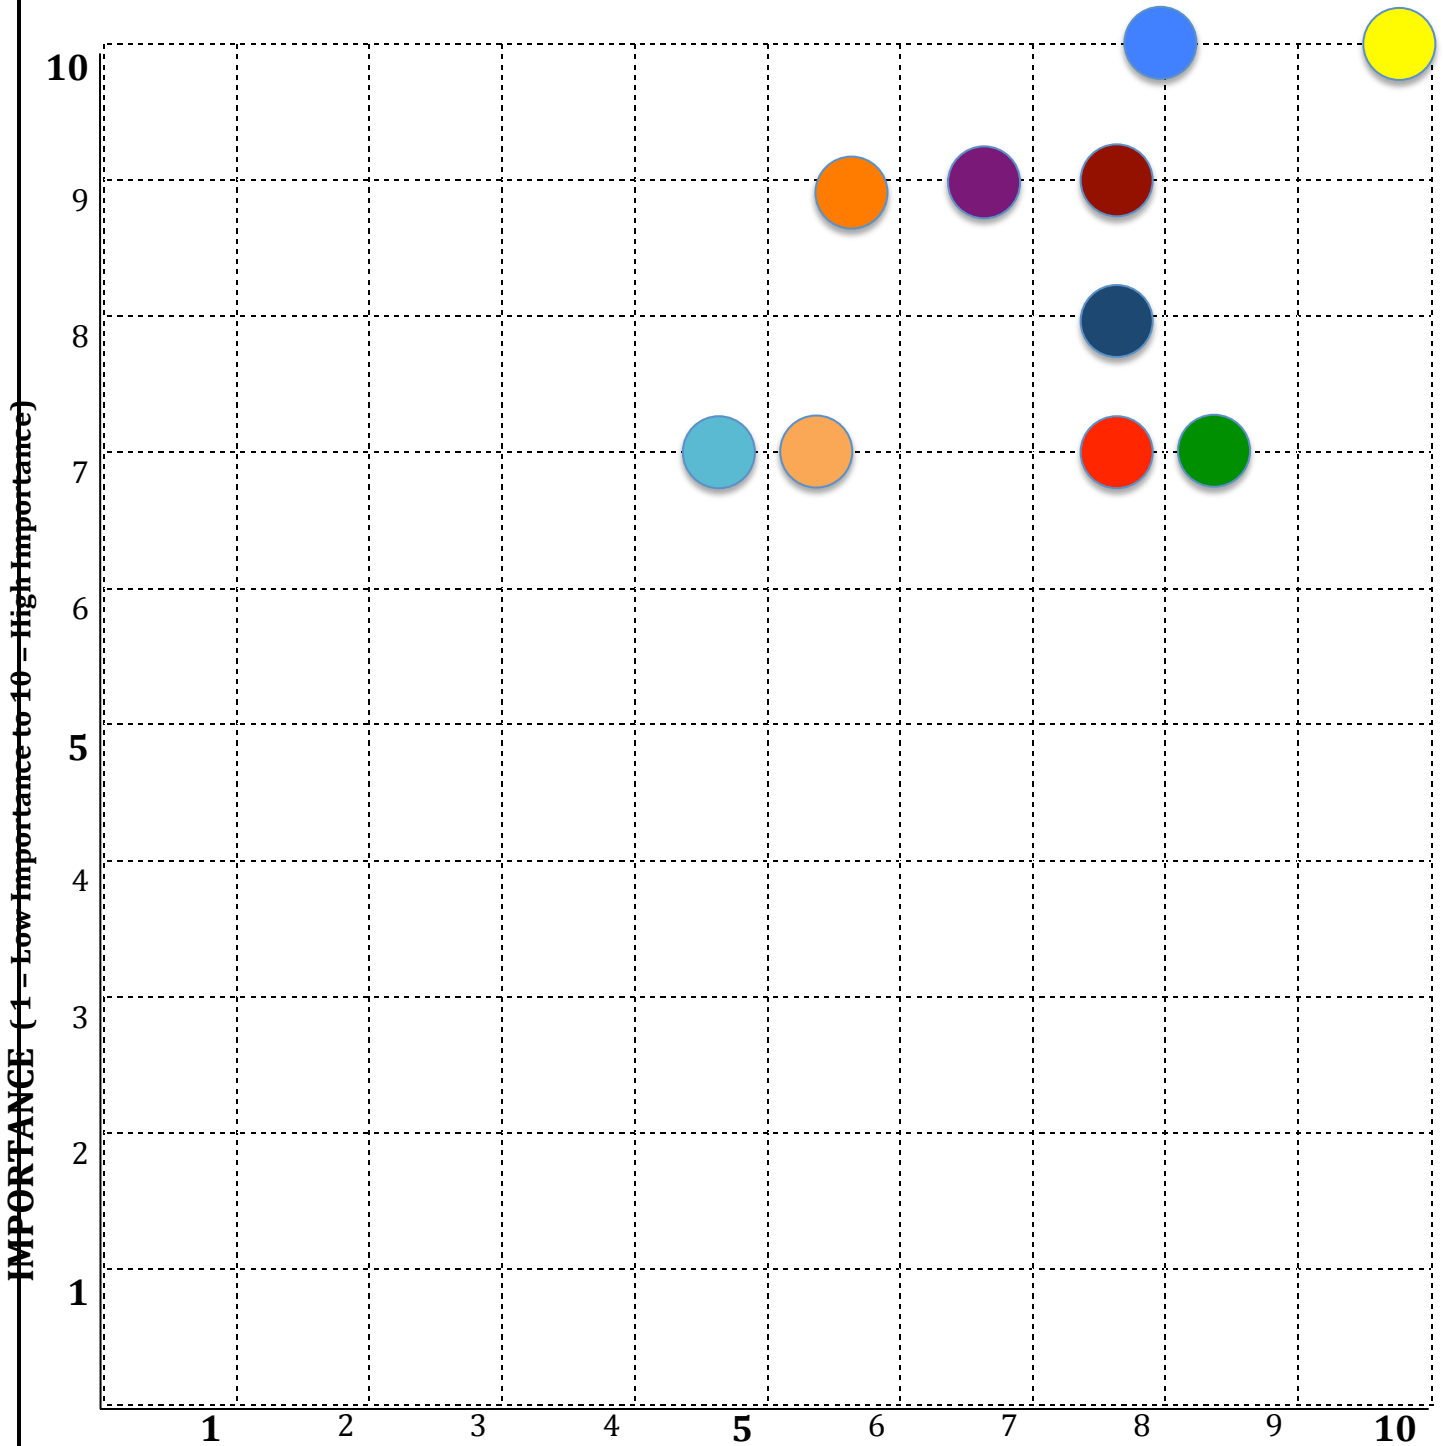

Just by some simple research, I have found out that there are many young adults who take advantage of programs such as Centrelink and Youth Allowance, who choose not to work whilst there is others who need jobs but can't afford a coat or a print out of their resume to go to an interview.

My ultimate goal is to completely eliminate poverty. Imagine a WA with no poverty; imagine an Australia with no poverty, no homelessness, no people malnourished or dehydrated; not being able to afford basic needs. This is my goal. I know it is big but that is why I chose this platform to showcase an opportunity of a better/ healthier Australia. If we work together and network with the right people, we will be able to achieve this goal by no more than 2030. All we need to do is care! Care enough to put effort in and work towards this goal! But no just this goal, every other topic here has been specifically chosen as it affects your future, our future; so let's make a difference.

Challenge	Local Examples	Description (Summary + Bibliography)	Negative Impacts	Proposed Solution/s	Positive Impacts
More employment opportunities	Tuart Hill, Mirrabooka, Balga, Nollamara, Westminster, Joondanna, Yokine - City of Stirling	Schemes to get homeless people back into the workforce by teaching them needed soft skills. Employment services such as worker training or job banks.	Rise in homelessness and people on unemployment benefits and overall economically worse.	Counseling and mentoring that specifies people to their strengths.	We will have less homeless people and more educated people with jobs that helps grow the economy.
Cheap housing opportunities for all	Bentley, St James, Beckenham, Cannington, East Cannington, Kenwick, Queens Park, Wattle Grove, Wilson- City of Canning. Shire of Kalamunda	Some sort of live together system with a household of previously homeless people to live in harmony with basic needs provided.	Those who are homeless that put in effort to enroll in regeneration programs will be able to access cheaper housing opportunities they can start paying after they get their first job.	The government can do government housing for those who have enrolled in their rehabilitation jobs centers and can start getting paid rent as soon as the person living in the house gets their first job through the rehabilitation Centre.	Those without and shelter at all e.g. those living in the streets with have warmth and cleanliness.

Government funding for those in immediate need- provide holistic services to low-income households	Nollamara, Maylands, Canning Vale, Thornlie, Morley, Queens Park, Dianella, Maddington and Cannington.	This includes for: <ul style="list-style-type: none">• Food• Shelter• Economic Recovery• Treatment	If the government doesn't implement funding what is happening now will happen always and the poverty will grow onwards.	Government funding for those in immediate need- provide holistic services to low-income households	This will help so many people and save lives as this can provide families with immediate care instead of getting put into an unsafe situation.
Eliminating inequality	Gosnells, Huntingdale, Martin, Southern River- City of Gosnells	The school system not catering for 95% of the people living in poverty	Kids not wanting to go to school and missing out on opportunities that effect a range of things	To slowly increase the taxes for those who make a lot over the year and spread it out to those who need it more.	By eliminating inequality meaning that everybody will learn to share and provide each with the same amount and the money can finally be distributed equally.
More food banks, food pantries, soup kitchens	Armadale, Bedfordale, Brookdale, Forrestdale, Mount Nasura, Mount Richon, Seville Grove, Wungong.- City of Armadale	The government can rent community areas in places with high poverty rate and get volunteers to cook, buy, donate and make others who need food and nourishment.	Some kids are dying with no food and are absolutely malnourished.	To slowly start more fundraiser where volunteers will try to help and make up a place to help others.	So many families and kids with get the proper nutrition and food need to suffice their needs if this comes into place.

Non-profit employees that provide emergency food services or aid to the homeless	Carlisle, East Victoria Park-Town of Victoria Park	Basically volunteer who donate canned goods and other much needed items for those who live daily on the streets.	Some kids are dying with no food and are absolutely malnourished.	More people getting informed about these programs so they can volunteer and help change many others life, perhaps even get some sort of certified resume reference.	By involving volunteers this immediately makes this whole scheme cheaper for the government and give the opportunity of the common public to help those less fortunate.
Drug & alcohol help,	Embleton, Morley, Noranda	Some sort of free rehabilitation Centre for those in very bad drug and alcohol problem and they can eventually learn to save money.	Increase in unemployment, homelessness, health issues and miss use of income.	More rehabilitation and education on the negative effects of drugs	Once the rehabilitation center does it's magic it can save many lives and futures and they can pursue onward with their formal future.

Extra services for women needs and homeless parents.	Alexander Heights, Girrawheen, Koondoola, Marangaroo	Good and services such as pads and diapers for the mothers and their babies is a necessary and this will be provided.	Some women are bleeding out every day as they can't effort pad, tampons let alone anything else but this is a health issue after a while as it is a hygiene issue.	Many women can sign up to a program where the donate period and child necessities on a monthly basis so the price is spread across and they would be lots of good that can be sent to the woman/ parents living on the streets.	Once the women can get the help they needed they can help their families and get themselves into a better place where they can find a job especially as they have more needs then a usual man.
Education	Willetton, Canning Vale	Limited opportunities to prepare kids for employment	Increase in unemployment and decrease in motivation	Better teaching styles and more opportunities related to actually getting jobs	By implementing better teaching styles this might interest so many children into an education where they can expect a future and perhaps a scholarship if they take the opportunity and do really well.
